Overall Length:

27.147 inches

Impedance Rating In Ohms:

52.0

Frequency Rating:

Between 450.000 megahertz and 1.100 gigahertz

Overall Diameter:

2.625 inches

End Application:

Type as-616/slr-2

Usage Design:

For outer conductor of transmission line

Material:

Brass

Material:

Copper alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T224-a
