Application Design:

Transmission line

Body Material:

Aluminum

Overall Length:

3.000 inches

Overall Width:

1.250 inches

Input Impedance Rating In Ohms:

600.0

Output Impedance Rating In Ohms:

600.0

Frequency Range:

Between 0.001 megahertz and 1.500 megahertz

Supplementary Features:

0.01 db; hermetically sealed

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A20000
