Application Design:

Transmission line

Overall Length:

8.000 inches

Overall Height:

1.125 inches

Overall Width:

1.875 inches

Scale Linearity:

Linear

Power Rating:

1.0 watts average

Overall Attenuation Range In Decibels:

+0.0 to 31.5

Frequency Range:

Between 250.000 hertz and 3400.000 hertz

Overall Attenuation Accuracy In Decibels:

-5.00/+5.00

Segment Attenuation Accuracy In Decibels:

-0.50 to 0.50

Impedance Rating In Ohms:

600.0 input-output

Fsc Application Data:

Telephone carrier terminals

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A223a0
