## NSN 5985-00-167-0991

Variable Attenuator - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5985-00-167-0991 **Application Design:** Transmission line **Overall Length:** 8.000 inches **Overall Height:** 1.125 inches **Overall Width:** 1.875 inches **Scale Linearity:** Linear **Power Rating:** 1.0 watts average **Overall Attenuation Range In Decibels:** +0.0 to 31.5 Frequency Range: Between 250.000 hertz and 3400.000 hertz **Overall Attenuation Accuracy In Decibels:** -5.00/+5.00 **Segment Attenuation Accuracy In Decibels:** -0.50 to 0.50 Impedance Rating In Ohms: 600.0 input-output **Fsc Application Data:** Telephone carrier terminals Shelf Life: N/a **Unit Of Measure:** 

Demilitarization:
