Terminal Quantity:

7

Terminal Type:

Connector, receptacle

Overall Length:

28.516 inches

Overall Height:

4.288 inches

Overall Width:

5.484 inches

Mounting Configuration:

Mtd with 3 brackets

Radio Frequency Rating:

Between 2.0 megahertz and 32.0 megahertz

Material And Location:

Aluminum case

Coupling Method:

Inductive-capacitive

Tuning Type:

Fixed

Fsc Application Data:

Amplifier radio frequency except navigation nonairborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T389-c
