Overall Length:

0.455 inches

Overall Height:

0.250 inches

Impedance Rating In Ohms:

50.0

Fragility Factor:

Moderately rugged

Operating Position:

All positions

Rf Connector Changing Feature:

Not included

Cooling Method:

Self-cooled

Style Designator:

Two hole mounted

Supplementary Features:

M55 to p100 degrees c testing range

Fsc Application Data:

Antennas, waveguides, and related equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A19800
