Overall Length:

1.422 feet

Overall Diameter:

2.312 inches

Mounting Method:

Flange

Distance Between Mounting Facility Centers:

16.624 inches

Basic Shape Style:

Cylindrical

Mounting Facility Quantity:

2

Special Features:

Seat coupling retainer welded to each end; 6 holes 0.140 in. Diameter equally spaced on 2.062 in. Diameter circle one end; 6 holes 0.187 in. Diameter equally spaced on 1.875 in. Diameter circle other end

Special Markings:

Part of antenna at 197/gr

Material:

Aluminum

Material:

Aluminum

Surface Treatment:

Enamel

Surface Treatment:

Enamel

Fsc Application Data:

Radio set, except navigation nonairborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A12000
