Body Material:

Plastic

Body Surface Treatment:

Any acceptable

Overall Length:

Between 1.715 inches and 1.717 inches

Frequency Rating:

9180.0 megahertz

Overall Diameter:

Between 0.324 inches and 0.326 inches

End Application:

Radar set an/fpn-16

Special Features:

63.0 in. Microinch finish o/a

Fsc Application Data:

Antennas, waveguides, and related equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T224-a
