End Application:

5985-00-724-4915, radio rotary coupler

Seal Thickness:

Between 0.307 inches and 0.317 inches

Seal Inside Diameter:

2.046 inches

Seal Outside Diameter:

Between 3.994 inches and 4.004 inches

Special Features:

8 holes equally spaced 0.161 in. Diameter through for mounting

Material:

Aluminum alloy 6061 fifth flange

Surface Treatment:

Chromate single flange outside surfaces

Style Designator:

For round waveguide and flange

Fsc Application Data:

Antennas, waveguides, and related equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A073a0
