Overall Height:

3.000 feet

Frequency Rating:

12.000 megahertz single antenna element and 30.000 megahertz single antenna element

Beam Scanning Method:

Fixed single antenna element

Design Type:

Whip single antenna element

Terminal Type:

Screw single antenna element

Special Features:

Rod type construction, steel olive drab finish, threaded screw typefor mounting on top of loop antenna

Fsc Application Data:

Radio set, navigation, except airborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A074a0
