Overall Length:

2.500 inches

Overall Width:

2.250 inches

End Application:

Model no. An/udr-2

Component Type And Quantity:

1 generator and 1 gear and 1 plate

Special Features:

Usage design: used to produce calibration markers on scope; mounting configuration: two 6-32 threaded mtg holes, 0.1875 in. Deep, spaced 1.250 in. C to c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A511I0
