Overall Height:

4.750 feet

Beam Scanning Method:

Fixed single antenna element

Design Type:

Whip single antenna element

Special Features:

Bronze locking ferrule, silver soldered on base, stainless steel cap 0.500 in. Dia, screwed on tip

Fsc Application Data:

Radio transmitter, radio navigation, except airborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A074a0
