End Application:

An/fps-14

Actuator Operating Method:

Motor

Actuator Voltage In Volts:

115.0

Coupling Position Quantity:

2

Supplementary Features:

Oper. Pwr rqmts: 115 vac, 60 hz, 1 ph; dim. 11.6 in. H, 13.5 in. W, 13.5 in. D; capable of pressurization to of atmosphere; func desc: switch for selecting the operating transmitter and receiver or standby transmitter and receiver for use with single waveguide run

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A158a0
