Terminal Quantity:

24

Terminal Type:

Stud

Mounting Method:

Holes

Component Quantity:

4

Component Controlling Agency:

Karkar electronics inc

Component Name:

Fixed attenuator

Component Identifying Number:

10002-19a part no. And 10002-21a part no. And 10002-37a part no. And 10002-38a part no.

Assembly Construction Method:

Mounted between terminals

Electrical Connection Method:

Series

Attenuator Type:

Fixed

Fsc Application Data:

Scope comm system, radio except navigation nonairborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T172-f
