Overall Length:

4.750 inches

Impedance Rating In Ohms:

50.0

Frequency Rating:

Between 0.0 hertz and 1.0 gigahertz

Special Features:

Fungus treated for tropical climate

Material:

Brass

Material:

Copper alloy

Precious Material And Location:

Conductor surfaces silver

Precious Material:

Silver

Fsc Application Data:

Antennas, waveguides, and related equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T224-a
