Application Design:

Transmission line

Body Material:

Metal

Body Style:

Rectangular, terminal/terminals on opposite surfaces

Overall Length:

2.781 inches

Overall Height:

1.281 inches

Overall Width:

1.219 inches

Input Impedance Rating In Ohms:

53.0

Output Impedance Rating In Ohms:

53.0

Connection Type Per Function:

Female output and male input

Mounting Method:

Connector

Terminal Type And Quantity:

2 connector

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A20000
