Overall Length:

25.330 inches

Overall Diameter:

31.420 inches

Anti-icing Provision:

Not included

Radome Flexibility:

Rigid

Pressurizing Device:

Not included

De-icing Provision:

Not included

Criticality Code Justification:

Feat

Special Features:

Critical due to alignment of screw holes in the seal, radome clamp after modification

Material:

Fiberglass

Material:

Glass fiber

Fsc Application Data:

Radar set, airborne, except fire control and guided missile

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T224-b
