Application Design:

Transmission line

Body Style:

Cylindrical w/side terminals

Body Diameter:

1.156 inches

Power Rating:

5.0 watts peak

Attenuation Variation Method:

Continuous

Adjustment Device Type And Quantity:

1 shaft

Shaft Type:

Round

Fsc Application Data:

Antennas, waveguides, and related equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A223a0
