Overall Length:

4.750 inches

Overall Height:

0.938 inches

Overall Width:

3.560 inches

Component Type And Quantity:

1 printed wiring board and 3 capacitor and 9 diode and 5 probe and 19 resistor

Special Features:

Mounting configuration: five 0.191 in.Mtg holes on a spacer spaced 3.000 in.By 4.250 in. C to c with one spacer in center each way; fsc application data: antenna groups

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
