Overall Length:

8.281 inches

Overall Width:

5.125 inches

Component Type And Quantity:

1 printed wiring board and 2 delay line and 29 transistor and 31 capacitor and 77 resistor and 14 diode

Special Features:

Mounting configuration: connector and rack mtd; fsc application data: antenna groups

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A5110
