Overall Length:

0.65 inches

Impedance Rating In Ohms:

25.0

Overall Diameter:

Between 0.430 inches and 0.432 inches

Material:

Beryllium copper

Material:

Copper alloy

Precious Material And Location:

External surfaces silver

Precious Material:

Silver

Fsc Application Data:

Antennas, waveguides, and related equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T224-a
