Frequency Rating:

1660.000 megahertz single antenna element and 1700.000 megahertz single antenna element

Beam Scanning Method:

Rotating single antenna element

Positioning Device Type:

Drive motor single antenna element

Voltage Rating In Volts:

115.0 ac single antenna element

Design Type:

Parabolic single antenna element

Fsc Application Data:

Rawin sets

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A074a0
