**Overall Length:**

19.312 inches

**Overall Height:**

17.625 inches

**Overall Width:**

13.375 inches

**End Application:**

Radar set, radar search equipment, except airborne

**Special Features:**

Major components: comma factor units, azimuth mark 3; gear train assembly 1; motors, self synchronous 2; terminal box assembly 1; usage design: furnishes a position signal to the servo systems which drive the ppi yokes in synchronism with the antenna; mtg configuration: four 15/32 in. Drill through 1/2 in. -20 tap, counter-bore 17/32 in. Diameter by 1/4 in. Mtg holes, 1 mtg hole spaced in each of 3 corners w/ 18-5/8 in. By 12-7/16 in. Mtg centers and 1 mtg hole on flattened corner

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A5110
