Overall Length:

19.312 inches

Overall Height:

17.625 inches

Overall Width:

13.375 inches

End Application:

Radar set, radar search equipment, except airborne

Special Features:

Major components: comma factor units, azimuth mark 3; gear train assembly 1; motors, self synchronous 2; terminal box assembly 1; usage design: furnishes a position signal to the servo systems which drive the ppi yokes in synchronism with the antenna; mtg configuration: four 15/32 in. Drill through 1/2 in. -20 tap, counter-bore 17/32 in. Diameter by 1/4 in. Mtg holes, 1 mtg hole spaced in each of 3 corners w/ 18-5/8 in. By 12-7/16 in. Mtg centers and 1 mtg hole on flattened corner

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A5110
