Overall Length:

0.500 inches

Overall Diameter:

5.188 inches

Usage Design:

For waveguide

Mounting Configuration:

Six 0.406 in. Diameter mtg holes equally spaced 60 degrees apart on 4.375 in. Diameter bolt circle

Unit Type:

Waveguide

Material:

Brass

Material:

Copper alloy

Fsc Application Data:

Radar antenna support set and radomes, except specially designed

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T389-c
