Overall Length:

3.660 inches

Overall Height:

1.6562 inches

Overall Width:

1.7375 inches

Impedance Rating In Ohms:

50.0

Frequency Rating:

Between 25.0 megahertz and 1000.0 megahertz

End Application:

Model no. 43

Usage Design:

Outer tube for transmission line

Material:

Brass

Material:

Copper alloy

Precious Material And Location:

Exterior surfaces silver

Precious Material:

Silver

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T224-a
