**Overall Length:**

3.660 inches

**Overall Height:**

1.6562 inches

**Overall Width:**

1.7375 inches

**Impedance Rating In Ohms:**

50.0

**Frequency Rating:**

Between 25.0 megahertz and 1000.0 megahertz

**End Application:**

Model no. 43

**Usage Design:**

Outer tube for transmission line

**Material:**

Brass

**Material:**

Copper alloy

**Precious Material And Location:**

Exterior surfaces silver

**Precious Material:**

Silver

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

T224-a
