Base Width:

25.000 inches

Accessory Components And Quantity:

As listed in dept of army technical manual tm 11-2615a

Maximum Height:

73.583 feet

Base Depth:

25.000 inches

Mast Construction:

Sectionalized

Section Quantity:

7

Special Features:

Mounting method: in concrete or steel pedestal base; top depth: 25.000 in.Nom; top width: 25.000 in.Nom; fsc application data: radio communication equipment, nonairborne;

Material:

Steel

Surface Treatment:

Zinc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A503w0
