Mounting Type:

Tripod

Inclosure Material:

Any acceptable

Overall Length:

44.250 inches

Overall Height:

30.375 inches

Overall Width:

42.000 inches

Current Type:

Ac and dc

Frequency Rating:

400.0 hertz and 400.0 hertz

Frame Material:

Magnesium alloy

Voltage Rating:

120.0 volts and 208.0 volts and 270.0 volts and -26.0 volts

Motion Transmission Type:

Horizontal

Motion Transmission Pattern:

Continuous in one direction

Motion Transmission Drive Type:

Electrical

Phase:

Single and three

Fsc Application Data:

Antenna-receiver-transmitter group, acquisition, guided missile fire control system

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T174-d
