Overall Length:

5.593 inches

Overall Height:

2.750 inches

Overall Width:

0.250 inches

Impedance Rating In Ohms:

52.0

Frequency Rating:

Between 225.0 megahertz and 399.9 megahertz

End Application:

Type no. An/grt-3

Usage Design:

Tuning assembly for left side of transmission line

Special Features:

Contact side rhodium flash finished

Material:

Brass

Material:

Copper alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T224-a
