Overall Length:

3.125 inches

Overall Height:

2.718 inches

Overall Width:

1.250 inches

Input Impedance Rating In Ohms:

50.0

Output Impedance Rating In Ohms:

50.0

Mounting Configuration:

Mounts by one 7/8 in. Male coupling w/nut and one 7/8 in. Female coupling, both couplings 1-1/418 nef thd

Radio Frequency Rating:

Between 0.950 gigahertz and 1.225 gigahertz

Unit Type:

Coaxial line

Special Features:

Coupler has two 90 degrees bends on same plane

Material:

Copper

Material:

Copper

Fsc Application Data:

Radio set, radio, except navigation and home type, nonairborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T389-c
