Overall Length:

6.380 feet

Overall Height:

2.786 inches

Overall Width:

5.568 inches

Design Type:

Straight single antenna element

Special Features:

Rectangular extruded flange shape, aluminum qq-a-2001/1/fmly qq-a-357/, anodic finish, other end along the length is 5.444 ft min, 5.446ft maximum to bottom of angle on left end, incl 10 mtg holes 0.287in. Dia unevenly spaced along top flange, 17 mtg holes 0.287in. Diameter on 3.760in. C to c mtg centers on lower flange, used to direct rf energy large horn

Fsc Application Data:

Antenna, radio set, mobile intercept, except nontracking, nonairborne jets type as-835/mpq-4a

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A074a0
