Overall Length:

24.500 inches

Overall Height:

1.500 inches

Overall Width:

1.625 inches

End Application:

Type as-768/gr

Component Type And Quantity:

4 conductor and 1 hub and 1 housing and 2 bushing and 1 tube

Special Features:

Fusage design: provides balancing between items of the antenna; mounting configuration: secured in place by 2 set screws and one bolt; fsc application data: antenna, radio, except navigation except airborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A5110
