Overall Length:

13.000 inches

Overall Diameter:

1.500 inches

Transmission Line Characteristic Impedance:

50.0 ohms

Operating Frequency:

Between 0.700 gigahertz and 4.000 gigahertz

Special Features:

For terminating type rg-44/u or rg-92/u coaxial line fitted w/coaxial shorting stub adjustable by sliding action fitted w/type ug-46/u connectors

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T199-a
