End Application:

Signal generator set an/usm-16

Trade Designation:

Socket, two pin

Controlling Agency:

Cinch mfg corp

Identifying Number:

54a16325 type no.

Connector Quantity:

1

Special Features:

Resin core solder 60/40 alloy rester solder co; includes coil and cathode block

Fsc Application Data:

Antennas, waveguides, and related equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T224-j
