Body Style:

Irregular

Overall Length:

3.000 inches

Overall Height:

3.430 inches

Overall Width:

2.780 inches

Frequency Rating:

7.0 gigahertz single frequency operating

Switch Type:

Transfer

Operating Temperature Range:

-65.0/+185.0 degrees fahrenheit

Coaxial Connector Series Designation:

Tnc

Connector End Design:

Female

Actuator Current Type And Rating In Amps:

0.23 dc

Actuator Voltage In Volts:

Between 18.0 and 30.0

Switch Operation Sequence:

Breaks before makes

Switching Time:

20.0 milliseconds

Rf Maximum Voltage Rating:

500.0 volts rms

Coupling Position Quantity:

3

Precious Material And Location:

Contact surfaces silver

Precious Material:

Silver

Terminal Type And Quantity:

4 receptacle, coaxial and 6 screw

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A158a0
