**Frequency Rating:**

2200.000 megahertz second antenna and 2400.000 megahertz second antenna

**Radiation Pattern:**

Omnidirectional all antennas

**Beam Scanning Method:**

Rotating all antennas

**Positioning Device Type:**

Drive motor all antennas

**Component Quantity:**

2

**Voltage Rating In Volts:**

115.0 ac all antennas

**Design Type:**

Corner reflector all antennas

**Mounting Method:**

Base

**Fsc Application Data:**

Direction finder set, radio navigation, airborne

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A074a0
