Application Design:

Waveguide

Body Material:

Brass

Body Style:

Irregular

Voltage Standing Wave Ratio:

1.50

Attenuation Variation Method:

Continuous

Adjustment Device Type And Quantity:

1 knob

Special Features:

Includes semi-conductor device

Terminal Type And Quantity:

1 connector, receptacle and 2 flange

Fsc Application Data:

Antennas, waveguides, and related equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A223a0
