Application Design:

Transmission line

Body Style:

Rectangular, terminal/terminals on opposite surfaces

End Application:

Countermeasures tst set an/alm-69

Input Impedance Rating In Ohms:

227.0

Output Impedance Rating In Ohms:

227.0

Mounting Method:

Terminal

Terminal Type And Quantity:

2 connector

Fsc Application Data:

Antennas, waveguides, and related equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A20000
