End Application:

2350-00-930-3590

Special Features:

Circular design, 5.500 in o.D. 4 ea 0.438 in i.D. Holes with 0.875 in i.D. Counterbore to 0.375 in depth evenly spaced around adapter

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250/11, alloy 6061 federal specification 1st material response or qq-a-225/8 federal specification 2nd material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537a0
