Overall Length:

65.797 inches

Overall Width:

2.125 inches

End Application:

Type no. At-912/vrc

Component Type And Quantity:

1 cable and 1 contact and 2 pin and 4 screw and 2 regulator

Special Features:

Nusage design: used as lower radiating element of antenna; mounting configuration: one 1.125 in.-12 thd mtg hole located on base; fsc application data: antenna, radio set, radio, except navigation and home type, nonairborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
