Overall Diameter:

2.250 inches

Attenuation Per Step In Decibels:

6.0 and 10.6 and 17.44

Special Features:

Resistance tolerance-porm 1 pct, terminal qty-6, terminal style-solder lug, o/a depth 2.344 in, impedance rating-10 kohms, resistor element type-composition, mtg configuration-2 no. 8-32 thd tapped mtg holes 1.50 in. C to c on front, freq range-5/500 khz, terminal location-side, step qty-4, deck qty-1, attenuation range-0 to infinity, last step style-tapered, detent action provided

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A223a0
