| Application Design:                       |
|---|
| Transmission line                         |
| <b>Unthreaded Mounting Hole Diameter:</b> |
| 0.221 inches                              |
| Power Rating:                             |
| 10.0 watts average                        |
| Overall Attenuation Range In Decibels:    |
| +0.0/+40.0                                |
| Attenuation Variation Method:             |
| Continuous                                |
| Mounting Facility Type And Quantity:      |
| 6 unthreaded hole                         |
| Overall Attenuation Accuracy In Decibels: |
| -0.60/+0.60                               |
| Impedance Rating In Ohms:                 |
| 50.0 input-output                         |
| Shelf Life:                               |
| N/a                                       |
| Unit Of Measure:                          |
|   |
| Demilitarization:                         |
| Yes - demil/mli                           |
| Fiig:                                     |
| A223a0                                    |
