Overall Height:

2.042 feet

Frequency Rating:

108.000 megahertz single antenna element and 512.000 megahertz single antenna element

Power Rating:

100.000 watts peak single antenna element

Characteristic Impedance In Ohms:

50.0 single antenna element

Beam Scanning Method:

Fixed single antenna element

Design Type:

Whip single antenna element

Terminal Type:

Connector, receptacle all antennas

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A074a0
