Overall Length:

3.000 inches

Characteristic Impedance In Ohms:

50.0

Terminal Fitting:

Included

Accommodated Conductor Type:

Coaxial

Tubing Outside Diameter:

0.875 inches

Special Features:

90.0 degrees bend

Material:

Aluminum

Material:

Aluminum

Fsc Application Data:

Radar antenna support sets and radomes except specially designed

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T224-e
