## NSN 5985-01-034-8942

Variable Attenuator - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5985-01-034-8942

Application Design:
Transmission line or waveguide
Center To Center Distance Between Mounting Facilities Parallel To Length:
0.994 inches
Center To Center Distance Between Mounting Facilities Parallel To Width:
0.956 inches
End Application:
Radio solar telescope network
Waveguide Flange Type:
Cover
Waveguide Flange Designation:
Ug1665/u
Adjustment Device Type And Quantity:
1 knob
Mounting Facility Pattern:
Four position rectangular
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A223a0
