Application Design:

Transmission line

Overall Length:

Between 0.672 inches and

Overall Height:

Between 0.547 inches and 0.579 inches

Overall Width:

0.672 inches

Attenuation Variation Method:

Continuous

Mounting Facility Type And Quantity:

2 terminal

Frequency Range:

Between 0.000 kilohertz and 100.000 kilohertz

Terminal Type And Quantity:

4 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A223a0
