End Application:
Radar test set
Precious Material:
Gold
General Description:
Frequency range dc to 18 ghz, 50.0 ohms impedance, max. Vswr 1.095, average power rating 0.5 watts, peak power rating 500 watts, 0.490
in. Length, 0.250 in. Diameter, heat treated beryllium copper with gold finish
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
