End Application:

Radar test set

Precious Material:

Gold

General Description:

Frequency range dc to 18 ghz, 50.0 ohms impedance, max. Vswr 1.095, average power rating 0.5 watts, peak power rating 500 watts, 0.490

in. Length, 0.250 in. Diameter, heat treated beryllium copper with gold finish

Shelf Life:

N/a

Unit Of Measure:

Demilitarization:

Yes - demil/mli
