Overall Length:

1.120 inches

Overall Height:

0.700 inches

Overall Width:

1.050 inches

Basic Shape Style:

Rectangular prism

Material:

Aluminum alloy and silicone rubber and steel, corrosion resisting

Material:

Aluminum alloy and rubber silicone class q and stainless steel

Surface Treatment:

Anodize and passivate

Surface Treatment:

Anodized and passivated

Fsc Application Data:

Aircraft gunnery fire control component

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A12000
